

A TRAINING EVENT

The Commonwealth Workforce Coalition (CWC) provides professional development and networking services for workforce development professionals working in the areas of education, training and employment.

The Community Economic Development Assistance Corporation (CEDAC) manages the CWC.

This workshop is one of a series of activities supported by a grant from the *Strengthening Communities Fund* and is a project of the Commonwealth Partnership for Economic Opportunity (CPEO), a joint effort of Commonwealth Corporation and the Commonwealth Workforce Coalition/CEDAC.

This project will work to address Massachusetts' critical need to build the capacity of a range of community and faith-based organizations to coordinate workforce development programs and resources for support services. The goal is to provide low-income adults and youth who are not engaged in school or work with the tools and resources they need to enable them to compete for jobs in our knowledge-based economy.
